

Keeping you and your organization IN business and OUT of court.

MATTHEW R. GRABELL, ESQ

Matthew's expertise includes over twenty-seven years of experience representing clients in workplace-related litigation. He now shares that expertise with corporations, through the use of real case examples and trial video, in an effort to minimize the risk of such lawsuits. Sexual harassment, bullying, and discrimination prevention training are important areas of focus as well as the legal implications of social media.

Employee Relations Solutions opens the plaintiff's playbook to provide interactive and effective employment law training and strategic tips on how to avoid claims in the future. Matthew shows business and HR leaders how they can use the inside secrets of a plaintiff's attorney to minimize risk and maximize productivity and morale.

His training sessions are both educational and entertaining so that attendees remain engaged, but most of all, they are effective.
